FM GROUP product catalogue
no. 16 2012

Discover new body care cosmetics

Everyday rituals can be much more pleasant. In this FM GROUP product catalogue you will find the new collection of face and body care cosmetics β -Glucan Active. It consists of face serum, creams: moisturising, rich and semi-rich, hand creams: moisturising & smoothing, regenerating & nourishing, and balms: anticellulite and moisturising. Effectiveness of these cosmetics is based on very innovative ingredients, such as oat beta-glucan. This collection is our answer to the needs of all types of skin.

We also recommend another novelty by Federico Mahora – Body Sign Collection. Wonderful chocolate-dipped cherries scented cosmetics which contain natural ingredients, such as shea butter, coconut oil and bees wax. There is nothing better for our skin.

We couldn't forget about men. Skin Lab collection, dedicated especially for them, is now enriched with natural warm body butter, perfect for a hot massage. Furthermore, perfumed shower gels, body balms, hand creams and perfumed antiperspirant roll-ons are now even better – new formulas and packages.

In this catalogue you will also find new fragrances: captivating, intensive and fresh. They fascinate not only with refined compositions but also with their outstanding bottle designs.

Have a great shopping!
